EU DECLARATION OF CONFORMITY/EU PROHLÁŠENÍ O SHODĚ
Packaging and Packaging Waste Regulation (EU) 2025/40 (PPWR) Article 39 and Annex VIII

EU Declaration of Conformity No./ EU Prohlášení o shodě č.	BM_PPWR-DOC-003
Revision/Revize/Date/Datum	01/ 10.08.2026

1. Unique identification of the packaging/ Jedinečná identifikace obalu

Packaging associated with Medical Device REF(s)

Obal související se zdravotnickými prostředky s následujícími REF, see Annex 1

The packaging covered by this Declaration is uniquely identified through the applicable Medical Device REF(s) in combination with the corresponding Bill of Materials (BOM), packaging specification(s) and/or packaging component identification maintained by the manufacturer, see Annex 1.

Obal, na který se vztahuje toto prohlášení, je jednoznačně identifikován prostřednictvím příslušných REF zdravotnických prostředků ve spojení s odpovídajícím kusovníkem (BOM), specifikací obalu a/nebo identifikací obalových komponent vedenou výrobcem

2. Manufacturer/Výrobce

BATIST Medical a.s.

3. Responsibility of the manufacturer/Odpovědnost výrobce

This EU Declaration of Conformity is issued under the sole responsibility of the manufacturer.

Toto EU prohlášení o shodě je vydáváno na výhradní odpovědnost výrobce.

4. Object of the declaration/Předmět prohlášení

The object of this Declaration is the packaging associated with the medical device(s) identified in Section 1 and in Annex 1, where applicable. The packaging components are defined and controlled through the applicable BOM, approved packaging specifications and PPWR technical documentation.

Předmětem tohoto prohlášení je obal související se zdravotnickým prostředkem (prostředky) identifikovaným(i) v oddílu 1 a v příloze 1. Obalové komponenty jsou definovány a řízeny prostřednictvím příslušného kusovníku (BOM), schválených specifikací obalu a technické dokumentace podle PPWR.

The identification system ensures traceability between the Medical Device REF, applicable BOM and the individual packaging specifications/components.

Použitý systém identifikace zajišťuje sledovatelnost mezi REF zdravotnického prostředku, příslušným kusovníkem (BOM) a jednotlivými specifikacemi a komponentami obalu.

5. Applicable Union legislation/Použitelné právní předpisy Evropské unie

The packaging identified above is in conformity with the applicable requirements of Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste (PPWR), including the applicable requirements laid down in or pursuant to Articles 5 to 12.

Výše identifikovaný obal je ve shodě s příslušnými požadavky nařízení Evropského parlamentu a Rady (EU) 2025/40 ze dne 19. prosince 2024 o obalech a obalových odpadech (PPWR), včetně požadavků stanovených v člancích 5 až 12 nebo přijatých na jejich základě.

Medical-device specific provisions / derogations. Where a PPWR derogation or specific provision applies to packaging used for a medical device, including a sterile barrier system or other safety-critical packaging, the applicability and justification are documented in the PPWR Technical Documentation. No general precedence of MDR over PPWR is claimed by this Declaration.

Zvláštní ustanovení a výjimky pro zdravotnické prostředky. Pokud se na obal zdravotnického prostředku, včetně sterilního bariérového systému nebo jiného bezpečnostně kritického obalu, vztahuje zvláštní ustanovení nebo výjimka podle PPWR, jsou jejich použitelnost a odůvodnění zdokumentovány v technické dokumentaci PPWR. Tímto prohlášením není uplatňována žádná obecná přednost nařízení (EU) 2017/745 (MDR) před nařízením (EU) 2025/40 (PPWR).

6. Standards, Technical Specifications and Supporting Documentation/Normy, Technická specifikace a podpůrná dokumentace

The conformity assessment is supported by applicable standards, technical specifications and supporting documentation maintained under the manufacturer's Quality Management System.

Posouzení shody je podloženo příslušnými normami, technickými specifikacemi a podpůrnou dokumentací vedenou v rámci systému řízení kvality výroby

Supporting evidence includes, where applicable: applicable European and international standards; approved Bill(s) of Materials (BOM); approved Packaging Specifications; material specifications; supplier declarations and certificates; REACH and SVHC declarations, where applicable; declarations regarding recycled content and recyclability, where applicable; technical reports and test reports; internal PPWR compliance assessments.

Podpůrné důkazy zahrnují zejména: příslušné evropské a mezinárodní normy; schválené kusovníky (BOM); schválené specifikace obalů; specifikace materiálů; prohlášení a certifikáty dodavatelů; prohlášení týkající se REACH a SVHC, pokud jsou relevantní; prohlášení o obsahu recyklovaného materiálu a recyklovatelnosti, pokud jsou relevantní; technické zprávy a protokoly o zkouškách; interní posouzení shody s požadavky PPWR.

The detailed evidence demonstrating conformity is maintained in the applicable PPWR Technical Documentation established in accordance with Annex VII of Regulation (EU) 2025/40.

Podrobné důkazy prokazující shodu jsou uchovávány v příslušné technické dokumentaci PPWR vypracované v souladu s přílohou VII nařízení (EU) 2025/40.

7. Notified body/Notifikovaná osoba

Not applicable, unless notified body involvement is required under applicable Union legislation.

Nevztahuje se, pokud příslušné právní předpisy Evropské unie nevyžadují zapojení notifikované osoby.

8. Additional information/Doplňující informace

The conformity assessment has been performed in accordance with Article 38 and Annex VII of Regulation (EU) 2025/40. Supporting technical documentation includes, as applicable, packaging specifications and drawings, BOM, material composition, supplier documentation, information on substances of concern, recyclability assessment, recycled content information, test reports/certificates and evidence supporting compliance with the applicable requirements of Articles 5–12.

Posouzení shody bylo provedeno v souladu s článkem 38 a přílohou VII nařízení (EU) 2025/40. Podpůrná technická dokumentace zahrnuje podle potřeby zejména: specifikace a výkresy obalů; kusovníky (BOM); složení materiálů; dokumentaci dodavatelů; informace o látkách vzbuzujících obavy (Substances of Concern – SoC); posouzení recyklovatelnosti; informace o obsahu recyklovaného materiálu; protokoly o zkouškách a certifikáty; důkazy prokazující splnění příslušných požadavků článků 5 až 12.

This Declaration shall be reviewed and updated where changes to packaging design, material composition, supplier, applicable legislation, standards or technical specifications may affect conformity.

Toto prohlášení musí být přezkoumáno a v případě potřeby aktualizováno při změně konstrukce obalu, složení materiálu, dodavatele, příslušných právních předpisů, norem nebo technických specifikací, které mohou ovlivnit shodu.

1324920265	Carton-3 layers yellow cardboard box	Cellulose pulp, Water, Starch, Aluminum sulfate, Retention aid, Dry strength agent, Dye, Polyvinyl alcohol (PVA), Ethylene-vinyl acetate copolymer (EVA), Polyvinyl acetate (PVAc), Acrylic emulsion, Pigment, Polyethylene wax, Organosilicon
1324920265	Label	Face Stock: Coated Art Paper Ingredients: Cellulose, Calcium Carbonate, Water, Starch, Latex Adhesive: Acrylic Pressure-Sensitive Adhesive Ingredient: Acrylate Liner: PE Coated Release Paper Ingredients: Cellulose, Calcium Carbonate, Water, Polyethylene, Poly(methylvinylsiloxane) Ink Ingredients: Acrylic acid and ethylene polymer, water, ethylene oxide homopolymer, pigment
1324920265	FFS packing-film	polyethylene, polypropylene
1324920265	FFS packing-medical paper without printing	Virgin cellulose fiber
1324920265	Sterilization Indicator Label	Fabric: Coated paper :pulp cellulose, water, calcium carbonate Adhesive: AP104A :methyl methacrylate - vinyl acetate - 2-ethylhexyl acrylate terpolymer, water Base paper: Glassine: pulp cellulose, silicone oil Ethylene oxide indicators :minerals, synthetic resins, pigments
	Clear adhesive tape	oriented polypropylene film, adhesive
1325020265	Folding Box	Main substance : Cardboard Coposition : Fiber、 Calcium Carbonate、 Kaolin、 Starch、 Styrene-buta diene latex
